

THREE H OFFICE FURNITURE

- Built on a tradition of European craftsmanship combined with innovative production practices, Three H has been crafting office furniture that bridges the gap between custom and mass for more than 35 years.
- Three H's unique process, from specification through to manufacturing, gives clients the advantage of a tailored solution without the delays and high costs typically associated with going custom. Products are specified "by the inch" making it possible to scale Three H products to virtually any space requirement. Most requests are shipped within three to four weeks from the order date.
- All Three H products boast an attention to detail typically reserved for higher end executive office suites. Built with a commitment to precise construction and featuring options like hand finished solid wood edges and mitered corners, many can't see the difference between Three H laminate and a real wood finish.
- During NeoCon 2009, Three H officially launched its new MultiStations™ OS line. Bringing together the best of both casegoods and systems furniture, the line helps create highly productive and highly comfortable open planned spaces that facilitate compact workstation footprints where necessary. The introduction of MultiStations™ OS marks Three H's first collaboration with award-winning industrial designer, Jean Bourassa.
- Three H previewed its MultiStations™ OS series of furniture during NeoCon 2007 and 2008. Since those initial previews, Three-H has worked collaboratively with interior designers and end users to perfect and evolve the system to reflect real work environments.
- In 2007, Three H unveiled a new brand identity at NeoCon World Trade's Fair. The new brand was developed in response to growing interest in Three H products from the architecture and design community. Since the re-branding initiative, Three H has enjoyed revenue growth within the highly competitive contract furniture sector - even during a volatile economic environment.
- Three H opened its permanent showroom in Suite 339 of Chicago's Merchandise Mart in 2003.
